Welcome to Fieberbrunn in the Tyrol

Many of you have probably been looking forward to a trip to Asia. Instead of being in the city of Incheon in Korea with its 2,7 million inhabitants you will be landing in the little market town of Fieberbrunn in Austria with its 4500 villagers. We understand that the final destination of the 75. Unica's odyssey could be something of a disappointment. The little Fieberbrunn Filmklub has pledged to put together a programme in the few remaining weeks which will be worthy of the important jubilee. However it will be smaller, more intimate and just different to what we are used to.

We would like to thank the committee of the Unica, and especially Mr. President Georges Fondeur, for the trust and confidence that has been placed in our village and in our club. We will do our very best to organise an unforgettable festival.

Fieberbrunn lies in the Pillersee valley and is a market town in the Kitzbühel Alps. The well known cities of Innsbruck and Salzburg are an hour's car journey, the sports town of Kitzbühel reachable in 30 minutes. Fieberbrunn has a good reputation for winter sport, in summer the mountains pull in the hikers, mountain bikers and walkers. More information can be found on the website of our tourist office on [www.pillerseetal.at](http://www.pillerseetal.at)

Hotel reservations can either be made direct or through the reservations centre which is offered on our homepage. We will make an effort to have the right kind of accommodation for every taste. There is also a first class camp site in the village.

The Festival will take place in the village events hall. In the same building and nearby there are different restaurants offering „Unica-Menüs“.

Every visitor should feel at home and experience special film days – that is our aim and we look forward to hosting the Festival and welcoming the Unica family.

For the organisation committee:  
Wolfgang Schwaiger
